

Digital Benefits Guides

Elevate Employee Experience

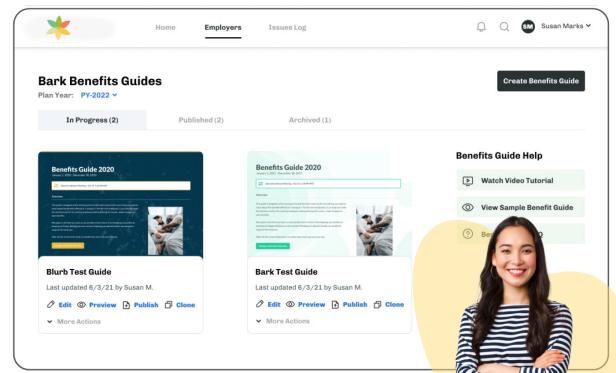

Branded and Fully Customizable

See the difference a modern, digital employee benefits experience can make with reduced HR overhead, education, and a look-and-feel that truly reflects the brand and culture of the company.

Give employees the tools they need for a modern benefits experience.

- **Plan Recommendations:** Personalized recommendations based on actual healthcare utilization
- **Multimedia Educational Content:** Embedded open enrollment videos, explanations of insurance terms, and in-line education
- **Plan Comparison Tool:** Easily compare the available plan options and understand which one is right for their needs
- **Provider Lookup:** Quickly understand which providers are in network under each of the available plan options
- **Information on All Benefits:** Everything from health plans to perks, time off policies & leave policies, communities (e.g. employee resource groups), and more
- **Digital ID Cards:** Employees can login to access Digital ID Cards for Medical, Dental and Vision

- **New Hire Checklists:** Customizable checklists to ensure that new hires get the same great experience as employees who were there during open enrollment
- **1:1 Virtual Benefit Consultations:** Quickly schedule a confidential consultation to better understand their benefits program, how to enroll and/or how to use their benefits throughout the plan year
